{Category} HH:MM PM Month/DD/YYYY

FUNCTIONAL SPECIFICATIONS

1 – User specific Feed or UGC

Type: Component area block

Functionality: This component will display the latest 20 feeds, ordered from most recent to older, top to right. Only feeds from the latest 6 months will be displayed. If no feeds are available, a “<No more available stories>” text has to appear at the bottom of the component.

2 – See More Button

Type: Button

Functionality: onClick displays 10 additional UGC. The call to action of UI may changde depends on technical constraints from IT.

Condition this call to action will only display when there are more than 20 entries of the associated session.

Component 10.10 – Profile Navigations

FUNCTIONAL SPECIFICATIONS

1 – Sub navigation links (conditional)

Type: hyperlinks

Functionality: Links will display only if at least 1 UGC is available of the associated session.

"My Activity Feed" will always show regardless whether UGC is available (reference Component 10.20 condition 20)

FUNCTIONAL SPECIFICATIONS

1 – Badges

Type:	hyperlink
Functionality:	onClick, page turn to static page with explanation of badges

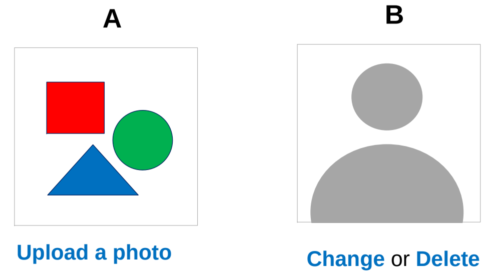
2 – Profile Photo

Type:	hyperlink
Functionality:	onClick, the photo uploading process is triggered. WordPress doesn't have a default core component to do this job; a plug-in is required to achieve this task, and functionality and steps/screens from plug-in to plug-in can vary. Basic workflow has to include at least: 1. Option to choose a file from user's hard disc. 2. Messaging with type of files allowed (e.g. JPG, PNG, etc) and maximum allowed size (e.g. 10 MB). 2. Photo Edition:

CONDITIONS

A. The first time the users logs-in, a default placeholder for profile photo will appear, and the action link will be: <Upload a Photo>.

B. Once the user has a photo uploaded, options will be "Change", to upload a new photo, or "Delete", to remove the uploaded photo and return to condition A.



A
B
Upload a photo
Change or Delete

3 – Screen name

Type:	text
Functionality:	Having an screen name is a mandatory condition to access and display the whole profile page.

4 – Personal Info

Type:	Display
Functionality:	Information gathered from the Universal Profile for display only purposes. This info is not editable.

Commented this:
{This is a post title from the Blog Posts or Buying Guides sections. It can be long. Like, silly-long sometimes. You try to do something about it, but really there's nothing to do.}

“{This is a comment lorem ipsum dolor sit amet, consectetur adipisicing elit, sed do eiusmod tempor incididunt ut labore et dolore magna aliqua. Ut enim ad minim veniam.}”

About Me

“Vitae dicta sunt explicabo. Nemo enim ipsam voluptatem quia voluptas sit aspernatur aut odit aut fugit, sed quia consequuntur magni dolores eos qui ratione voluptatem sequi nesciunt. Neque porro quisquam est, qui”

MODULE CONDITIONS

1 – Expert Specialties
Type: Module
Functionality: Should display expert's specialties.
Specialties shouldn't overpass expert's badges profile information.
They should form columns so that the content doesn't grow too much vertically.

2 – User's Activity
Type: Module
Functionality: Should display user's activity feed in inverse chronological order. Most recent first.
Content created by the expert like: Buying Guides, Blog Posts, Answers to questions, should rank above likes/ dislikes/follows/etc.

3 – Content/Story type filters
Type: hyperlink
Functionality: Should refresh activity feed and display filtered story types only in inverse chronological order.
Should only be displayed if they are at least 1 or more stories of that content type.

4 – Story Feeds – Component 20
Type: **module**
Functionality: Reference wire ECOM6064 Recent Activities Feed
- Condition: {Screen Name} shouldn't be displayed in each feed module.
Content created by the expert like: Buying Guides, Blog Posts, Answers to questions, should rank above likes/ dislikes/follows/etc.
Featured story + 19 stories will be displayed by default.

5 – See More Button
Type: Button
Functionality: Should load the next 10 stories

6 – About Me
Type: Text
Functionality: Should display About Me from the expert.
Information to be input via de Admin tool.
Content will be truncated with "..." after 200 characters.

7 – Ad Unit
Type: Clickable Image
Functionality: Populates Ad which would be curated by Admin using Adobe CQ5.
